EZYDOG®

THE EZYDOG STORY

HOW IT ALL BEGAN

Working in the water sports industry for many years not only in wholesale and sales but also on the cutting room floor, I became familiar with the benefits of the strength and durability of the raw materials.

With this in mind coupled with my passion for the surf, sand and adventure, together with my love of man's best friend, my Border Collie 'Roger', I came up with the invention of a bungee cord dog leash. I made a few and tried them out and soon my friends were asking for them so I made a supply and took them to a local craft market. There was an overwhelming response and I was soon supplying to other markets throughout Australia.

This was the beginning of the success story of the first product the 'Original Shock Absorbing Dog Leash', which began its production in my humble garage workshop, calling in my dad to help when things became hectic.

Six years ago I was selling more than I could produce so I decided to reformat the business and EzyDog® was born. All products are still handmade to the highest quality in our factories and sold in 18 countries worldwide. We strive to be at the forefront of innovation for the active dog enthusiast, providing a comprehensive range of dog leashes, collars, harnesses, jackets, float vests and other accessories.

EzyDog® | COLLARS

THE EZYDOG® NEOPRENE CLASSIC COLLARS OFFER THE BEST IN COMFORT, STYLE AND DURABILITY.

The collars are made from soft neoprene (as used in wetsuits) and reinforced with nylon webbing for strength. The choice of materials, including the stainless steel D-ring, makes the EzyDog® Collars completely waterproof, non-rusting and easy to clean. The collars also feature hook and loop adjustment, quick release buckle and reflective piping for visibility at night. A safe choice your dog is guaranteed to like.

EzyDog® | LEASHES

ALL OUR LEASHES ARE HANDCRAFTED AND INDIVIDUALLY SPLICED WITH EXCEPTIONAL ATTENTION TO DETAIL AND QUALITY.

It started with the 'Original Shock Absorbing Dog Leash' and has over the years expanded to a whole range of leashes. We have recently introduced our innovative Vario Nylon Leash Series, functional leashes that work! As a part of our extensive research and development program, each product undergoes months of rigorous testing.

The Car Restraint, which is included with every Chest Plate Harness, can also be bought separately.

EzyDog® QUICK FIT HARNES S

WITH THE NEW QUICK FIT HARNES S, IT'S JUST OVER THE HEAD, ONE CLICK OF THE BUCKLE AND YOU'RE ON YOUR WAY.

The harness has a unique interlocking adjustable chest strap. Neoprene lining make it soft and comfortable for your dog.

Reflective stitching ensures high visibility and both models are made from water resistant materials including non-rusting stainless steel rings.
